LinkedIn: <https://www.linkedin.com/in/jamilbd07>

Website: <https://www.jamiluddin.com>

Full Stack Engineer with 10+ years of experience building scalable web applications, specializing in WordPress ecosystem, React-based architectures, and AI-powered product development.

Over the past 2+ years, focused on integrating AI into production systems, including AI chatbots, content generation, and intelligent automation workflows. Strong experience in designing backend systems, handling API-driven architectures, and optimizing development workflows using AI tools.

Proven ability to lead product development, solve complex technical challenges, and deliver high-quality software used by a large user base.

Core Skills

Languages & Frameworks

- PHP, JavaScript (ES6+), React
- WordPress (Plugin & Theme Development)
- Gutenberg Block Development (Advanced)

AI & Backend Systems

- AI Chatbot Development (LLM-based)
- AI Content & Image Generation Systems
- REST API Design & Integration
- Prompt Engineering & AI Workflow Optimization

Tools & DevOps

- Git, Webpack, NPM, Composer
- WP CLI, MySQL
- Jira, Trello, Agile Methodology

Experience

Startise Limited

Senior WordPress Developer and Project Manager

DECEMBER 2019 - PRESENT, Dhaka

- Lead development of **Essential Blocks for Gutenberg (200K+ active installations)**
- Architect and build scalable WordPress plugins using modern JavaScript (React-based block system)
- Developed AI-powered product features, including:
 - AI Content Generation tools
 - AI Image Generation integrations
- **Developed AI Chatbot system for BetterDocs**, including:
 - Knowledge-based response system using embeddings
 - API-driven chat architecture
 - Background processing and sync pipelines
- Design and manage product lifecycle: requirement analysis → development → release
- Improve engineering efficiency through **AI-assisted development workflows**
- Provide technical leadership and coordinate development processes across teams

Workspace Infotech Ltd

WordPress Developer

June 2015 - NOVEMBER 2019, Dhaka

- Developed **50+ custom WordPress websites** across multiple industries
- Built custom themes and plugins tailored to client requirements
- Delivered WooCommerce-based eCommerce solutions
- Contributed to projects using **Laravel and React (Redux)**
- Implemented SEO strategies and analytics tracking
- Worked extensively with Elementor, Divi, and Visual Composer

AI Project Experience

AI Chatbot – BetterDocs

- Developed a production-grade AI chatbot integrated into a WordPress product
- Implemented document embedding and semantic retrieval mechanisms
- Addressed real-world scaling and background processing challenges

AI Content & Image Generation Systems

- Built tools for automated content and media generation
- Integrated external AI APIs for dynamic content workflows
- Applied structured prompt engineering for consistent outputs

AI-Assisted Development Workflow

- Daily usage of Claude Code, ChatGPT and OpenClaw
- Automated code generation, debugging, and development workflows
- Improved delivery speed and reduced manual engineering effort

Education

BSc Hons' in Business Information Technology

Daffodil International Academy, Certified by University of Greenwich, UK
CGPA: 3.55 (Higher Second Class, UK Standard)

Interests

- AI Product Development
- System Design & Scalable Architecture
- SaaS & Business Strategy
- Football, Traveling

Achievements

- 🏆 3rd Place – AI Innovation Challenge, Startise (2025)
- 🏆 Best Project Idea Winner – Workspace Infotech (2018)
- 🎓 Best Student Award – Daffodil International Academy (2014)
- 📜 Certified Professional Project Manager – IBA, University of Dhaka
